EXPERIENCE

Reich & Tang

New York, NY

Junior Developer

10/2018 - PRESENT

- Works closely with management and development team to develop and enhance functionality of internal and external applications in C#, .NET, AngularJS, jQuery, and Microsoft SQL Server.
- Participates in weekly systems development stand-up meetings.

Seabury Enterprise Solutions LLC

Summit, NJ

Software Developer

03/2017 - 09/2018

- Worked on teams developing, designing and implementing new functionality and enhancements in C#, .NET, Oracle RDBMS, Microsoft SQL Server, and AngularJS for Enterprise Performance Analysis System (EPAS), a web and desktop application designed to measure flight profitability.
- Implemented "Accounting Module," a configurable web-based ETL tool that allows MRO systems to import transactional data into General Ledger systems using ASP.NET, C#, Entity Framework, AngularJS, and Microsoft SQL Server.
- Enhanced data import functionality into EPAS Airline Performance module (APAS) that fueled improvements to productivity, efficiency and accuracy using .NET and PL/SQL.
- Performed quality-assurance testing on several Seabury software products and provided detailed reports on identified bugs to team members.
- Participated in daily stand-up meetings and sprint planning.

Lux Fund Technology & Solutions Inc.

New York, NY

Software Developer (Contracted to Lux Fund Technology & Solutions)

09/2016 - 12/2016

- Worked closely with CTO in developing and implementing new functionality and enhancements for Transcend, a web application suite designed for use by hedge funds and hedge fund administrators.
- Implemented data export functionality and drilldown functionality for Transcend's dashboard widgets using Microsoft SQL Server, C# and AngularJS, as well as Wijmo and Highcharts for data visualization.
- Implemented the ability to categorize financial reports by user-generated categories using SQL, C#, and AngularJS in order to improve usability.
- Redesigned Transcend's sample SSRS reports in order to establish a consistent look-and-feel with the product.

EDUCATION

Rutgers University
